

TERAND

The Maintenance Professional's Choice

WINTERIZING WAX 164

A special blend of silicone and wax that provides a slick, non-stick coating that prevents ice and snow from sticking to plows, shovels and other snow removal equipment. Treated surfaces also become water and rust resistant. The coating provides superior release action to reduce drag and sticking of many materials to metal and other surfaces. Spray on snow removal equipment to keep snow and ice from building up on blades, mold boards and wings. Also excellent for use on road signs to keep snow or ice from sticking and allow for easy readability. Helps increase the efficiency of snow removal, material handling, turf maintenance and road equipment.

FEATURES

- Increases Plow Efficiency
- Helps Prevent Salt Corrosion
- Protects Metal Surfaces, Fiberglass, Painted and Plastic Finishes

FOR USE ON

- Snow Removal Equipment
- Plows
- Shovels and Blades
- Helps Blades Stay Sharp Longer

Specs:

Can Size	16 oz.
Net Weight	11 oz. (311 g)
Shipping Weight	16 oz per can
Packaged	12 cans per case
Extender Tube	No

Regulatory:

Ozone Depleting Compounds	None
Recyclable Package	Yes
Flammable	No

Physical Characteristics:

Color	White straw
Fragrance	Lemon
Shelf Life	1 year +
