

## STAINLESS STEEL COATING

297405

A special formulation containing pure 316 stainless steel pigment combined with a super tough acrylic resin. Provides a hard resistant coating that seals surfaces against corrosion, harsh weather, chemical damage and abrasion. A revolutionary, one package ready to use product that requires no measuring or addition of other ingredients. Flows over and coats surfaces smoothly and evenly and dries to a satin finish. Dries to the touch in 15 minutes. Hardens overnight. Recommended as a topcoat, not a primer

### FOR USE ON:

- Radiators
- Fire Hydrants
- Exhaust Fans
- Parking Meters
- Wire Fences
- Water Lines
- Lockers
- Tanks
- Chemical Processing and Production Equipment

### FEATURES:

- Long Lasting
- Super Tough Acrylic Formula
- Protects Against: Rust, Corrosion and Chemical Damage
- Resists UV Light
- Excellent Adhesion to: Metal, Wood, Ceramic, Concrete/Equipment
